

**ICMES-2025 / 8th International Conference on Materials & Environmental Science, June 12-15, 2025, Saïdia – Morocco**

**Biography :**

**Prof. Dr. Rachid TOUZANI**, Since 2016, is a Full Professor at the Department of Chemistry, Faculty of Sciences, University Mohammed Premier, Oujda, Morocco. He received his PhD in Chemistry in 2001 under the supervision of Professors Abdelkrim Ramdani, Sghir El Kadiri, Taibi Ben Hadda and Pierre Dixneuf. He performed his first postdoc position at the Université de Rennes 1, France, (2001-2000) with Professor Olivier Lavastre. He also performed a second postdoc at the University of Ottawa, Canada, with Professor Haword Alper (2002-2005). In 2019, he was in the world's Top 2% of scientists. He published more than 300 documents (Hindex = 45) with the publication of 10 Book-chapters and 5 Books. His research interests included corrosion inhibitors in collaboration with professor Belkheir Hammouti, for organic inhibitors with new compounds synthetic methodology. He supervised more than 20 PhD students, he participated and organized many international conferences such as ICMES2016-ICMES2024. He was a Fulbright Visiting Scholar in 2010 in USA, in Professor Alain Goldman Group at Rutgers University. He was Guest Editor, Editor and Reviewer of many journals (Plants; Material Today Proceedings; Moroccan Journal of Chemistry...).
